

ATTENTION: DAIRY FARMERS!

Have you ever wondered about the *health of your soil*?

Are you curious to learn about *regenerative farming*?

Are you looking for a more *environmentally friendly* way to farm your land?

THE FUTURE OF FARMING.

AgriSea New Zealand invites you to learn about a more profitable way to farm with **Dr Christine Jones**.

Who is Dr Christine Jones?

Internationally renowned for her work in groundcover and soil ecology, Dr Christine Jones is an expert in regenerative farming and land management practices. Her work has seen her speak all over the world about biological farming and the benefits it can bring to farmers, their land and their animals.

Coming to a centre near you!
